

Application Sample: Priority Communities  
Total maximum possible points: 50 points

Please review these questions prior to beginning your QuickBase application. Edits made in the QuickBase site will not save if you leave the application before submitting. Please use this PDF as a template. All application narrative questions are provided below.

Question 1. Identification of need and/or interest. Communities will provide a narrative explaining their overall need and/ or interest in selecting the chosen Blueprint. (15 points)

Question 2. Past performance. Communities will provide a narrative explaining the past experience of the community, or of an individual involved in the project, implementing a project or program for the community's benefit. Include an explanation of the outcomes, project management methodology, and what contributed to the projects success. (10 points)

3. Identification of benefits. Communities will explain how the Blueprint will impact their community and evaluate the community benefits. Communities will provide an explanation for any financial, economic, health, aesthetics, etc. benefits their community will receive as a result from the Blueprint- cost savings, improved air quality, reduction of green house gas emissions, etc. (15 points)

Question 4. Project Readiness. Communities will explain how they intend to provide progress/ milestone checks, document completion, education/ awareness opportunities and lasting benefits- through social media, creating a project schedule for the public to follow, public showcase when project is completed, education/ workforce training centered around Blueprint chosen. (10 points)
