DRAFT UPDATED MAY 21, 2025

Attachment 1 – Comprehensive List (Drinking Water Projects)

Attachment 1 Drinking Water State Revolving Fund 2024 Comprehensive List							
Community	2020 Pop.	Total Project Cost	Affordability Score	Est. Notice to Proceed	Est. Construction Start	Est. Project Completion	Project Description
Floyd County	98,584	\$10,000,000	24	12/2025	1/2026	1/2027	Floyd County plans to develop a new well and new water treatment plan to address PFAS contamination in their current water supply wells.
City of Gray	9,551	\$200,000	24	2/2026	4/2026	11/2026	The city of Gray seeks to conduct a pilot study to determine the best treatment solution to address PFAS contamination in their wells.
Harris County	22,922	\$3,000,000	17	6/2026	7/2026	7/2028	The county intends to conduct a pilot study on multiple PFAS removal technologies to determine which technology best suits its surface water system. The county also plans to develop preliminary/final plans and upgrades to its treatment facilities with PFAS removal capabilities based on the findings of the PFAS pilot study.
Dalton Utilities	99,315	\$1,370,000	20	6/2025	7/2025	9/2026	Dalton Utilities will use Rapid Small-Scale Column Tests (RSSCTs) and water from the utility's water treatment plant to test the effectiveness of four different anion exchange resins on removing PFAS and other emerging contaminants. Powder activated carbon will also be tested for its impact on water quality.
