

Welcome to the Georgia Environmental Finance Authority Georgia Solar online application.

The Georgia Environmental Finance Authority (GEFA) is offering this rebate to increase awareness and education of renewable energy production while decreasing energy costs for Georgia taxpayers. This rebate is offered to government entities that are not eligible to receive the 30 percent federal tax credit that benefits for-profit facilities.

GEFA will provide rebates to cities, counties, and K-12 public schools and will reimburse up to 50 percent (or \$50,000 whichever is less) of the cost of materials, design, and installation of up to 60kW ground mount or rooftop solar installations.

Please note: Applicants must be a Georgia city, county or K-12 Public School. Only one rebate will be awarded per entity. Program funding is provided by the U.S. Department of Energy and recipients must follow federal funding guidelines.

Instructions

Please make sure to fill out ALL required (*) fields of the application, upload documents where required and when 100 percent complete, click the SAVE button at the top of the screen. This will submit your application to GEFA. We will review and process all complete applications in the order received. Applicants will receive notification of approval or denial in writing from GEFA, typically within 10 business days.

Once approved, an official contract will be sent to each agency for signature. Rebates will be provided once the contract is executed, and only after the final invoice and proof of payment has been completed and delivered to GEFA.

Applicant Information

Organization Name *

Applicant Organization Type * (drop down options: city, county, K-12 public school)

Applicant Street Address *

Applicant City *

Applicant State *

Applicant Zip Code *

Applicant County *

Applicant's Contact Name *

Applicant's Contact Title *

Applicant's Phone Number * ext.

Applicant's Email *

Applicant's Email (Verify) *

Installation Information

Installation Street Address *

Installation City *

Installation State *

Installation Zip *

Installation County *

Installation Location Description *

Proposed Project Schedule

Please upload a detailed project schedule. Completion should be no later than September 30, 2017. *

Attachment:

Proposed Project Costs

Total Proposed Project Cost*

GEFA Rebate Projected*

(Please upload an installation estimate or quote if available.)

Attachment optional:

Rebate Eligibility Requirements

Include a letter of commitment from the highest ranking official including a statement on the agency's financial ability to execute the project if the grant is awarded. *

Attachment:

Provide a detailed energy tracking plan. *

Attachment:

Include a community education plan. *

Attachment:

Check Box to Agree*:

By checking this box, rebate recipients agree to provide biannual solar energy production data to GEFA for three years. Failure to do so will result in repayment of the rebate to GEFA.
